### **An international perspective from the Gateway to Europe**

In Sonderborg, all of Europe is within your reach. This is where Scandinavia meets and merges with continental Europe. Major urban areas such as Flensburg, Hamburg and Kiel are our close neighbours, while the well-developed infrastructure of motorways and airports provides short distances to other metropolitan areas such as Berlin and Copenhagen.

Sonderborg is a natural hub in the borderlands. This has given us a unique ability to cooperate across borders, cultures and dividing lines, so that today people of 120 different nationalities reside in Sonderborg. Some of the leading multinational corporations are headquartered here, while our university has the most international campus in Denmark with students from more than 50 countries. We have provincial spirit and lots of perspective.

### **Locally rooted schooling with international perspective**

In Sonderborg, we educate students for a global reality all the way from their ABCs to PhDs. We have international preschools, primary, secondary and upper secondary schools, as well as innovative independent schools and youth study programmes. Students from more than 50 countries attend the university, making this campus the most international in Denmark.

This is also how it should be in an area where some of the biggest multinational corporations in Denmark are headquartered, and which is located where Scandinavia and continental Europe meet and merge. Our children grow up with an international perspective – but are not afraid to get their hands dirty. Because in Sonderborg we stand with both feet firmly planted in the fertile soil of Southern Jutland. This gives them both depth and ballast when they venture forth into the world.
